From Zero to Hero in Python

# Roberto Gonzalez

CS Grad | Automation Engineer | Aspiring Cybersecurity Professional  
United States

## Summary

Passionate about securing digital ecosystems, I am transitioning into cybersecurity with a strong foundation in QA automation, software development, and risk management. Currently completing the Google Cybersecurity Certificate. Let's connect!

As a QA Automation Engineer, I design robust testing frameworks that align with security best practices, ensuring applications are resilient. My background in software development further equips me to understand attack surfaces and implement secure coding principles.
